Education

Bachelor of Arts, Computer Science '17

Grinnell College, Grinnell, IA, USA

Computer Science GPA: 3.94 - **Cumulative GPA**: 3.6

Experience

SOFTWARE ENGINEERING INTERN, KIFI MAY 2015 - PRESENT

- Helping launch Kifi for teams on the Android platform.
- Wrote an image carousel view that fetches images from the Flickr API asynchronously, allowing images to be picked in real time. Image picking rates grew by 16% on Android due to this feature.

SOFTWARE ENGINEERING INTERN, INGRAIN. JUNE 2014 -AUGUST 2014

- Developed an Android demo for Google I/O 2014 and an alpha version of the android SDK for Ingrain, a video monetization framework that allows placing individually targeted ads into video.
- Redesigned the Groopic android app by Ingrain, which has 500,000 users, to accommodate Android L's material design philosophy.

LEAD ANDROID DEVELOPER, APPDEV, GRINNELL COLLEGE. 2014 FEB-PRESENT

- Maintain and oversee six Android applications with over 1,000 daily users.
- Manage a team of 5 Android developers and mentor new hires.
- Work on Android projects, such as G-licious and Grinwell, & release them on to the Play Store.
- Codebase: https://github.com/GrinnellAppDev
